

## Zoom In!

With the government counselor and an offshore fisher!

Zoom In: with Government counselor! It is hectic all kinds of people are worrying they just want to fish but they can't and you know why because the economy is changing. Here is someone from the government counselor to talk about his opinion "Many of these people have been fishing for 20, 25 years.... It's their way of life. They did the job. They did it well. And just like that, it's taken out of their hands.... And you try to explain to them that the economy is changing. They don't want to hear that. They just want to hear that they can

go back fishing." Thank you. Some of the other people are here to and here is an offshore fisher and here is his opinion " I considered going away, but where would I go? I have no skills other than being a dragger man [offshore fisher]. I have a house down here that's not paid yet. If I had to complete the payments on\ this one and ... go somewhere else with my family, what am I going to do? So this is the sort of desperation. Thank you too.

If you agree with one of these people then please leave a comment on [www.jadeboron.blogspot.com](http://www.jadeboron.blogspot.com) and if you don't, just think about it. Thank-you again!
